

Review and validate a page

Follow this procedure to review and validate a page

 Difficulty Easy

 Duration 15 minute(s)

Contents

Step 1 - Go to the tutorial

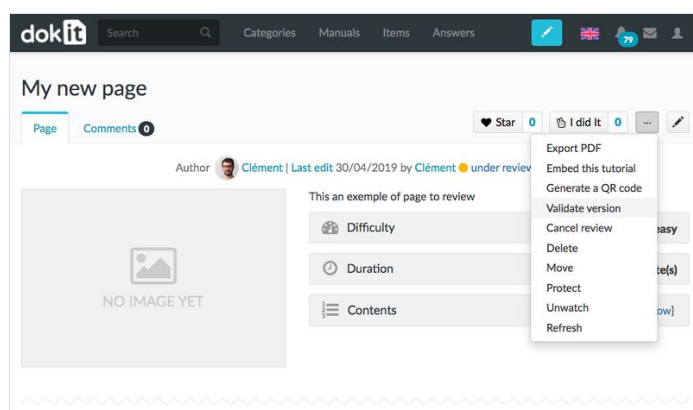

Step 2 - Accessing the parameters of a tutorial

Step 3 - Validate the page

Comments

Step 1 - Go to the tutorial

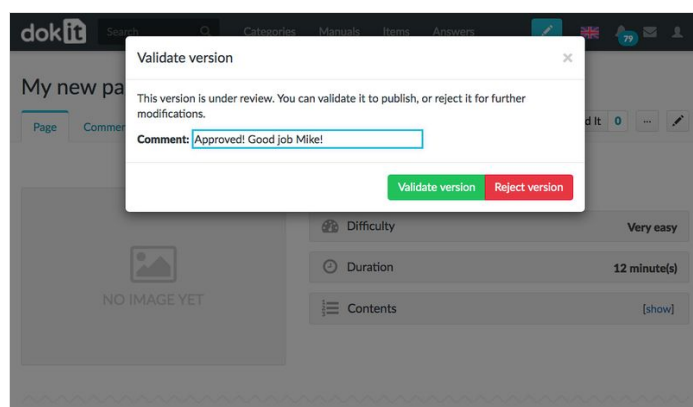

On the home page, click on a tutorial.

Step 2 - Accessing the parameters of a tutorial

Once in the tutorial, click on the button representing the three points, to access the parameters of the page.

In the drop-down menu, select **Validate version**.

Step 3 - Validate the page

To validate the page, click on **Validate the version**.

 You can leave a comment in the Comment field.

The screenshot shows the dokit interface for a page titled "My new page". The page is in a "Validated" state. The author is Clément, and the last edit was on 30/04/2019. The page content includes a placeholder for an image ("NO IMAGE YET") and a table of metadata:
